

May 21, 2010

To Whom It May Concern,

It was quite a pleasure to have Marlys and Gary Johnson join us at the Moffitt Cancer Center April 8, 2010 to share their Cancer Adventures.

We were fortunate enough to have them speak in our Infusion Center, where we administer chemotherapy treatments and blood transfusions to our patients. Our Infusion Center sees an average of 150 patients each day, so as you can imagine our clinic is always filled with patients and caretakers waiting for their appointments. Having Marlys and Gary share their story with our guests was really a wonderful experience for all who were able to be in attendance. Their personal stories are ones all of our patients can relate to. Hearing how the Johnson's have dealt with and continue to manage Gary's disease was definitely inspirational.

I would genuinely recommend having Marlys and Gary speak to anyone who will give them an opportunity. Their message is truly helpful not only to those who are battling with cancer, but to anyone who has faced adversity in their life.

Sincerely,

A handwritten signature in blue ink, appearing to read "Lizette Robles". The signature is fluid and cursive, with a large initial "L" and "R".
